

Dear FCC:

I am a current subscriber of XM and I really do appreciate the fact that I can get weath and traffic on XM. I don't have to rely solely on FM/AM stations. Besides, the FM/AM stations only provide weather and traffice every 10 to 15 mins. XM can provide me with the same information 24/7. If I'm paying for this service, I should have the freedom to listen to it anytime I want.

I am strongly opposed to the petition from NAB to stop XM from providing Instant Traffic & Weather. Please do your best to reject the NAB's petition 04-160.

Thank You
Binh Ly
